

Qingyu LIU

qliu91@jh.edu, <https://qingyuliu0521.github.io/>

EDUCATION

Johns Hopkins University | Baltimore, MD Aug. 2025 – Present
M.S.E. in Electrical and Computer Engineering

Shanghai Normal University | Shanghai, CHN Oct. 2020 – Jun. 2024
B.S. in Electronic Information Engineering (Outstanding Graduate)
GPA: 3.95/4.00 (Rank: 2/523, Top 0.5%)

RESEARCH EXPERIENCE

Cross-Lingual F5-TTS v1, Shanghai Jiao Tong University X-LANCE Lab Nov. 2025 – Present
Core Member | Supervisor: Prof. Xie Chen

- Proposed synthetic audio prompt generation to replace forced alignment for transcript-free voice cloning training in original Cross-Lingual F5-TTS.
- Developed a data construction pipeline via F5-TTS inference for each training sample with quality filtering.
- Achieved SOTA performance on the LibriSpeech-PC test-clean benchmark by fine-tuning the pretrained Cross-Lingual F5-TTS with the combination of real and synthetic data.

Multilingual F5-TTS, Shanghai Jiao Tong University X-LANCE Lab Oct. 2025 – Present
Core Member | Supervisor: Prof. Xie Chen

- Developing a multilingual text-to-speech system based on F5-TTS.
- Optimizing text tokenizers for Multilingual F5-TTS.

Cross-Lingual F5-TTS v0, Shanghai Jiao Tong University X-LANCE Lab Mar. 2025 – Sep. 2025
Core Member | Supervisor: Prof. Xie Chen

- Developed a novel framework based on F5-TTS with MMS forced alignment that enables cross-lingual zero-shot voice cloning without requiring audio prompt transcripts.
- Designed and trained speaking rate predictors to derive speech duration from audio prompt pace.
- Deployed an interactive online demo on Hugging Face Space for public evaluation.

Infant Cry and Snoring Detection, Shanghai Normal University Nov. 2023 – Jul. 2024
Leading Researcher | Supervisor: Prof. Yanhua Long

- Constructed and open-sourced the Infant Cry and Snoring Detection (ICSD) dataset for public research use.
- Proposed the Competitive CRNN+BEATs method, significantly improving system performance on the ICSD dataset.
- Released the ICSD dataset and baseline codes on GitHub.

INTERNSHIP EXPERIENCE

Johns Hopkins University, Center for Speech and Language Processing Dec. 2025 – Present
Research Assistant | Supervisor: Prof. Berrak Sisman

Shanghai Jiao Tong University, X-LANCE Lab Aug. 2024 – Present
Remote Research Assistant | Supervisor: Prof. Xie Chen

AWARDS

Gold Award, 10th China International College Students "Internet+" Competition June. 2024
Gold Award, 14th Challenge Cup July. 2024
First Prize, 14th China National Undergraduate "Innovation, Creativity, and Entrepreneurship" Challenge May. 2024
Gold Award, 9th "Think Youth" Digital Creation, Innovation & Entrepreneurship Competition Apr. 2024
Excellent Project Completion, National Undergrad Training Program (Top 5%) Nov. 2024
